

The analysis of football on our community.

Submitted by: ali amr abdelrehim

Introduction:

This survey is about Football (soccer) and its affect on our community as Football is the most famous sport here in egypt.

Population of Interest:

People between 15-35

Research Question:

The question is how Football affects our community and to know if it is pushing us forward as a whole or not.

Sampling Method:

Convenience was the best fitted way of collecting data for this Question.

Hypothesis:

As the people around the community love this sport, this survey will be a heads up as to how they are thinking and mixing between this sport and their life.

Bias Identification:

Having alot of people loving the beatiful game so it was hard. but i made sure to ask alot of people to fill the survey,and ask those who dont like Football much.

Survey Questions:

- 1)Has football contributed to economic development?**
- 2) How has football influenced education and learning in your community?**
- 3) How has the globalization of football affected local traditions?**
- 4) How has TV coverage and media representation of football influenced public opinions in your community?**
- 5) How has empty stadiums in Egypt affected fans and players?**

Online survey link: [google form](#)
